We would like to thank everyone for bearing with us while we try to sort out our opening schedule and procedures during this pandemic. Everyone has been very patient and receptive to the changes we have tried to implement, and we finally have some good news for a change.

On April 16th, New York State has deemed pool openings an essential service and we can resume our normal service operations with only minor delays. Although we will be starting a few weeks behind, we have modified our schedule so that most pool openings will only be delayed by one week. While we understand this may not be ideal, it is much better than the alternatives we were looking at only a short time ago.

As of this time, it is safe to assume that your pool opening date will be exactly one week later unless we contact you directly. In order to make this work, we had to condense our schedule to the point where change requests will be extremely difficult to accommodate until our workload lightens.

If you already confirmed your original opening date, there is no need to contact us or reconfirm. Again, your opening will be exactly one week after your original date. If you have yet to confirm, please do so at your earliest convenience as failure to do so will likely push your opening to the middle of June. Our office and retail departments are still minimally staffed, and your patience is very much appreciated while we try to help everyone.

We hope this update brings at least a small amount of much needed relief and we can get back to enjoying our backyards again soon.

Our Mission ~ To constantly exceed our reputation as the best swimming pool retail, service, and construction company in the industry.
